Superior Atomization Technology: Achieve perfect performance with all paint coatings because of the innovative technology in this spray guns needle, nozzle, and air cap system. Paint coatings are fully atomized with the ideal fan pattern to lay down perfectly for a clean even basecoat or topcoat finish. The gun provides elite-level spray performance with all types of automotive, industrial, and woodworking coatings.

Waterborne Compatible: Precision-engineered high-grade stainless steel components.

Designed for the professional painter that demands flawless results every time, the NO-O-Ring design & high grade stainless steel construction make it perfect for automotive painting.

This Spray Gun is perfect to apply Clear Coat or similar products.

We offer 1 Year Warranty.
